**Subject:** STS

Romi,

Following up on yesterday's telecom:

- 1) Bob Pochowski called me on 1/8 and asked :
  - a. If Honeywell has established an exclusive relationship with STS and
  - b. If Honeywell would be interested in developing a similar sort of chip with his company
- 2) I indicated that I was not free to discuss Honeywell's relationship with Silicon Test Systems and that I would get back to him on 1b)
- 3) We understand that STS do not have a "Non-Compete" Agreement in place with Bob
- 4) We will advise Bob that we will not be in a position to support his development activities for at least the next 10 to 12 months.
- 5) As we discussed I'd be obliged if you could send us some "system-level" information that we could present, and give to our sales Reps, at our National Sales Meeting next week in Florida.

Thanks,  
Gren
